Ladies and Gentlemen:

Subject: Public Right of Way Use Fee

The Commonwealth Transportation Commissioner hereby informs you that as the registered agent for a certificated provider of telecommunications services, your company is required to report certain information by December 1 of each year. Based upon the definition in §56-468.1 of the Code of Virginia, this information includes the number of access lines as of September 30, 2008, and the total of annual footage of new installation of telecommunication facilities. Additionally, if you are presently providing applicable services in Virginia, you should be collecting the right of way use fee and forwarding those fees quarterly to the Virginia Department of Transportation's Financial Manager or the relevant locality. As of July 1, 2008, this fee is 72¢ per access line.
