Citizen Information Meeting: Pardon Our Dust

## I-95/Temple Avenue Interchange Improvements City of Colonial Heights

Wednesday, February 3, 2016, 5 - 7 p.m.  
Colonial Heights Courthouse  
550 Boulevard  
Colonial Heights, VA 23834

Presentation times: 5:30 p.m. and 6:30 p.m.

### Public Meeting

Welcome to the Virginia Department of Transportation's (VDOT) "Pardon Our Dust" meeting on the I-95 Temple Avenue Interchange Improvements project in the City of Colonial Heights.

This citizen information meeting is being held to discuss construction impacts and traffic management associated with the I-95 Temple Avenue Interchange Improvements design-build project, which includes the replacement of a signalized intersection with a roundabout.

The meeting will be held in an open house format, with general information presentations at 5:30 p.m. and 6:30 p.m.

### Civil Rights

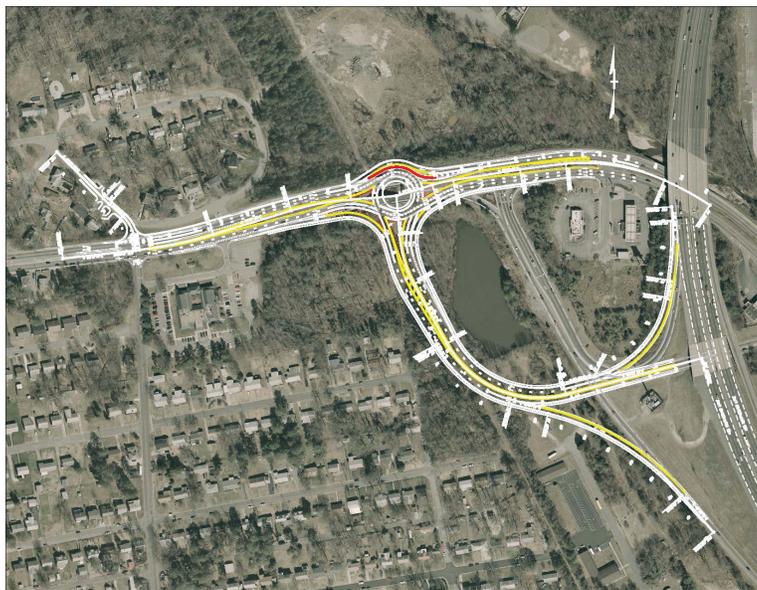

VDOT strives to ensure that all members of the community are given the opportunity to participate in public decisions on transportation projects and programs affecting them.

VDOT, design-build team members, City of Colonial Heights and Kroger representatives are available to answer questions and provide information about construction phasing and traffic impacts during the multi-year project.

A website for the project has been established and will be updated throughout the phases of construction. The website address is:

[www.95templeimprovements.org](http://www.95templeimprovements.org)

## Project Overview

**Cost** – Approximately \$20 million

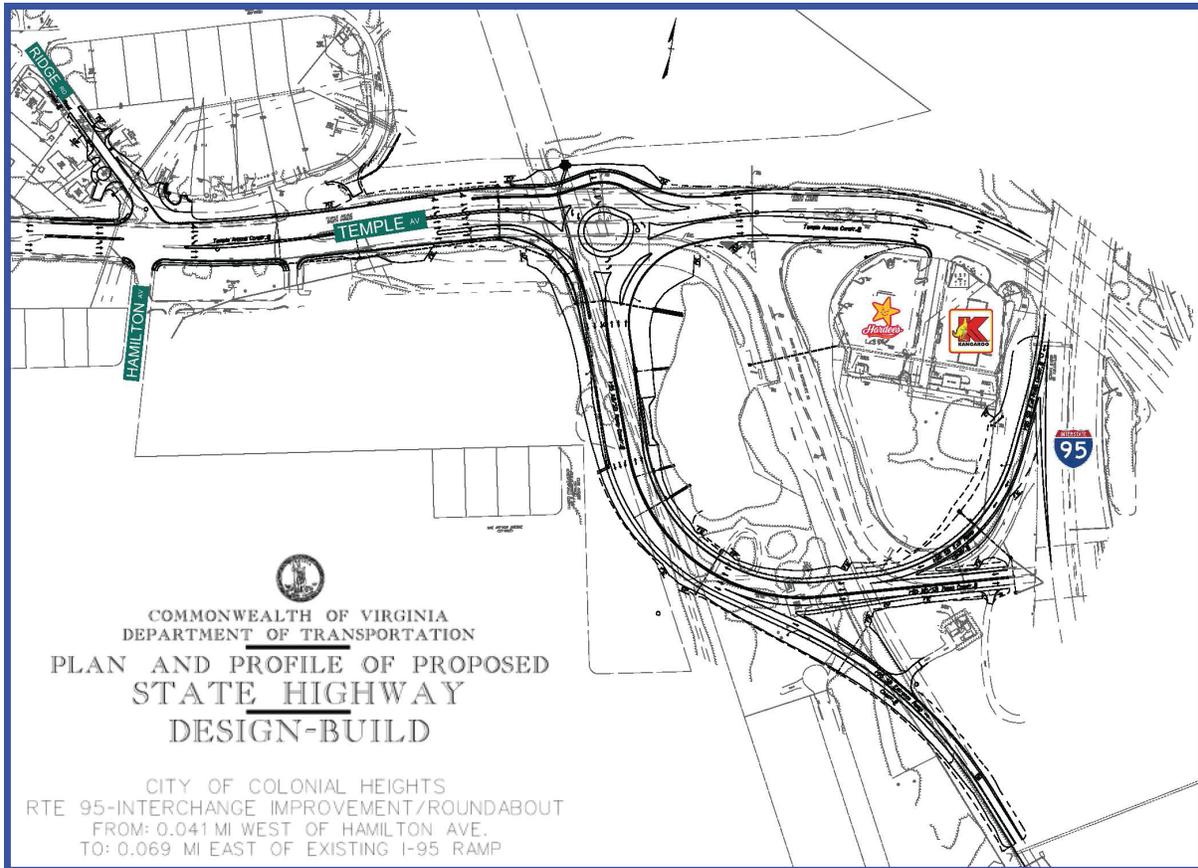

**Purpose** – To improve traffic flow through the I-95/Temple Avenue Interchange, to eliminate prolonged periods of delays and to decrease the accident rate within the project limits

**Improvements** – Replacement of a signalized intersection with a roundabout, removal of merge at I-95 off ramps and realignment of ramps to new intersection location

**Project Limits** – Hamilton Avenue to I-95 overpass

**Anticipated Completion** – Fall 2017

# PROJECT DESCRIPTION

This design-build project will realign the entrance and exit ramps at the I-95 interchange at Temple Avenue and replace the signalized intersection with a roundabout. The roundabout will be relocated west of the current intersection and will include two lanes for traffic and a continuous bypass lane on the westbound approach. The I-95 ramps will be extended and improved to provide better sight distance, vehicle capacity and transition from interstate speeds to the Temple Avenue roundabout. This plan will require removing the Temple Avenue bridges to construct the roundabout.

During construction, at least one lane will be open in each direction at all times. Traffic may be heavy, especially during peak travel times.
