

Citizen Information Meeting
May 18, 2016

Intersection Improvements to Cox Rd. at Boydton Plank Rd. & Ferndale Rd. *Dinwiddie County*

Why are we doing this project?

The primary purpose of this project is to improve safety and traffic operations at two existing intersections on Cox Road (Route 226) in Dinwiddie County.

The roundabout at Ferndale Road and Cox Road will address safety and road capacity needs, along with improving aesthetics. The Route 1 at Cox Road improvements will consist of minor widening to provide better turning movements and to accommodate bicyclists.

When will the project be constructed?

This project is already under construction and is expected to be complete fall of 2016.

How much will the project cost?

The total project cost is approximately \$4 million. This includes the estimated price for design, right of way acquisition and construction.

For more information about this project, visit www.VirginiaDOT.org or call 1-800-FOR-ROAD.
