Interstate 81 - Exit 245

SMART SCALE Applicant:

City of Harrisonburg

This project consists of the relocation of the Interstate 81, exit 245 northbound off-ramp to align with the existing signalized intersection between Port Republic Road (Route 253) and Forest Hills Road.

SMART SCALE Funding:

\$3,923,707

The project will enhance access to James Madison University and improve traffic operations along Route 253 between the Forest Hills Road signal and the I-81 northbound on-ramp signal.

Estimated Cost:

\$3,923,707

Estimated Ad Date:

Spring 2019

Project Manager:

John-Allen Ennis, P.E., 540-332-7891

Interstate 81 - Exit 247

UPC 100781, 104177

Estimated Cost:

\$51,594,574 UPC 104177

\$16,705,884 UPC 100781

This project consists of the replacement of structurally deficient bridges with capacity improvements over I-81 at Exit 247 and Route 33 over Norfolk Southern Railroad to the west of the interchange. The I-81 interchange will be modified to improve ramps and to replace the eastbound Route 33 to northbound I-81 loop ramp with a signalized left turn ramp access.

Estimated Ad Date:

Fall 2020

Summer 2016

Route 11 (Lee Highway) - North River Bridge

UPC 90092

Contract Value:

\$4,679,809

This project replaces the Route 11 bridge over North River. The project is 0.367-mile long with its limits extending from 0.013-mile north of Route 694 to 0.390-mile north of Route 694.

Estimated Completion:

Summer 2017

The proposed project will replace the deteriorated North River bridge. The existing bridge has two 11-foot lanes with narrow shoulders. The 33-foot wide and 314-foot long bridge includes a taper for a left-turn lane. The new roadway will be 320-foot long and have two 12-foot lanes, with a 12-foot center turn lane and two eight-foot shoulders. The roadway shoulders will have a four-foot wide paved surface to accommodate bicycle traffic. The new bridge will be constructed in stages. The first stage will be located east of the existing structure.

Project Manager:

Wayne F. Nolde, P.E., C.C.M. 540-332-9047

A contract valued at \$4,679,809 was awarded on November 5, 2015, to Crossroads Bridge Inc. of Marion, Virginia.

Route 11 (South Valley Pike)

UPC 108810

SMART SCALE Applicant:

Rockingham County

This project consists of the reconstruction of a 1.3-mile segment of Route 11 to a four-lane, divided roadway that will increase capacity. The project will match the existing four-lane, divided road segment at the intersection with Cecil Wampler Road and taper down to match the existing two-lane road section at the southern city limits of Harrisonburg.

SMART SCALE Funding:

\$18,296,217

The project will also signalize the intersection with Cecil Wampler Road.

Estimated Cost:

\$18,296,217

Estimated Ad Date:

Early 2021

Summer 2016

Route 33 West (Rawley Pike)

SMART SCALE Applicant:
Rockingham County

This project will enhance safety along a 1.7-mile segment of Route 33 by widening the existing roadway to add paved shoulders to the fullest extent possible. This will allow for increased recovery area along curve sections of the roadway and improve passing maneuverability for truck traffic.

SMART SCALE Funding:
\$9,366,944

Estimated Cost:
\$9,366,944

Route 257 (Ottobine Road) - Dry River Bridge

UPC 90181

Estimated Cost:
\$5,337,204

The proposed project is located on Route 257 (Ottobine Road) at the bridge over Dry River in Rockingham County. The project is 0.178 mile long with its limits extending from 0.112-mile west of Route 738 to 0.066-mile east of Route 738. The proposed project will replace the deteriorated Dry River bridge. The existing bridge has two 11-foot lanes with narrow shoulders. The bridge is on a crest that limits sight distance at the Route 738 intersection.

Estimated Ad Date:
Late 2016

Project Manager:
John-Allen Ennis, P.E., 540-332-7891

The new bridge will be 225-feet long and have two 12-foot lanes. The shoulder width will be eight-feet wide. Sight distance will be improved at the Route 257 and Route 738 intersection. Route 738 will be on the same alignment as the existing roadway. Bridge construction will be in staged phases. During construction one lane of traffic will be maintained with a traffic signal on Route 257. Route 738 will be closed and a detour will be put in place.

Summer 2016

Route 687 (Massanetta Springs Road)

UPC 105706

Estimated Cost:

\$3,500,000

This project is 0.52-mile long and extends from Route 33, heading south on Route 687.

Estimated Ad Date:

Late 2016

Safety will be improved along this roadway by reducing several hills, widening the road, and adding curb and gutter. Turn lanes will also be added at the Route 33 intersection.

Project Manager:

Michael Fulcher 540-332-2243

Rockingham County will be administering the project, which is funded with Revenue Sharing allocations.

Route 727 (Airport Road)

UPC 94879

Estimated Cost:

\$1,708,235

This project will correct a curve on Route 727 (Airport Road) located west of the North River Bridge. The project location is between Route 698 and Route 696 in Mount Crawford, approximately two miles southeast of the Town of Bridgewater. The project is 0.35-mile in length with limits from 0.42-mile west of Route 11 to 0.77-mile west of Route 11. Route 727 is approximately 3.1 miles long running west to east connecting Route 42 and Route 11.

Estimated Ad Date:

Fall 2016

Project Manager:

Justin Beaver, 540-332-7819

The purpose of this project is to reconstruct Route 727 in order to fix a sharp curve with poor sight distance and widen the roadway to Route 698 (Wise Hollow Road) to increase safety. A bridge replacement project to the east of the project location was completed in December, 2013. The proposed project will tie in to the bridge replacement project.

Summer 2016

Route 867 (North River Road) - Pleasant Run Bridge

UPC 90183

Estimated Cost:

\$2,660,389

This project is located on Route 867 (North River Road) at the bridge over Pleasant Run in Rockingham County. The project is 0.1760-mile long with its limits extending from 0.322-mile west of Route 693 to 0.145-mile west of Route 693. The proposed project will replace the deteriorated Pleasant Run bridge.

Estimated Ad Date:

Late 2018

Project Manager:

John-Allen Ennis, P.E., 540-332-7891

The existing bridge is a 13-foot wide single-lane structure and has a posted weight limit of 25 tons. The adjacent roadway has two nine-foot lanes with narrow shoulders and ditches. The new bridge will be 75-feet long and have two 10-foot lanes. The shoulder width will be two-feet wide. The alignment is proposed to be shifted to the south in order to avoid a detour during construction and improve the overall roadway alignment and bridge approaches.

South Main Street (Route 11) and Martin Luther King Jr. Way City of Harrisonburg

UPC 109379

SMART SCALE Applicant:

City of Harrisonburg

This project consists of improving Martin Luther King Jr. Way and South Main Street with the addition of turn lanes, signal reconstruction, and the addition of a shared use path. City of Harrisonburg will administer this project.

SMART SCALE Funding:

\$2,674,933

Estimated Cost:
