Written Notice Of Emergency Force Account

During a routine inspection of the Retaining Wall along SB I-395 between Glebe Road and King Street, it was noticed that the top portion of a section of the existing retaining wall is showing signs of separation. This warranted the District Structure and Bridge Section to address this situation immediately and execute an Emergency Force Account Contract.

The I-395 Retaining Wall emergency repair work includes the following scope:

Maintenance of Traffic (MOT) Devices in place to provide an working area, this shall be followed immediately with stabilizing the portion of the Retaining Wall that has shown signs of separation along SB I-395 at the exit ramp to King Street (Route 7). See attached picture for location of the Retaining Wall. Eradiate and restripe. Assist VDOT in the investigation required for more permanent fix; may include but not limited to clearing and grubbing, video inspection, cleaning existing drainage, crane support.
