The Federal Highway Administration (FHWA) Resource Center Civil Rights Team is conducting a Title VI/Non-discrimination Training Course for State and local governments who receive federal highway funds. As recipients and sub-recipients of FHWA funds, State Transportation Agencies and Local Public Agencies (LPAs) (i.e., cities, counties, municipalities, etc.) must ensure non-discrimination in all of their programs and activities, as required by Title VI of the Civil Rights Act of 1964, and related statutes. As leaders for improving mobility on our nation's highways, the FHWA has responsibilities for ensuring that all people, regardless of Race, Color, National Origin, Sex, Age, or Disability share in the benefits of highway programs.

This training will cover:

- *Understanding your roles and responsibilities as recipients of DOT funds*
- *How to apply Title VI to meet program requirements*
- *Key elements of a Title VI Plan or Non-discrimination Agreement*

There is no registration fee; however, space is limited!
