

Print Organizer (Batch Plotting)

Go to **File** on the Main MicroStation Menu and select **Print Organizer**

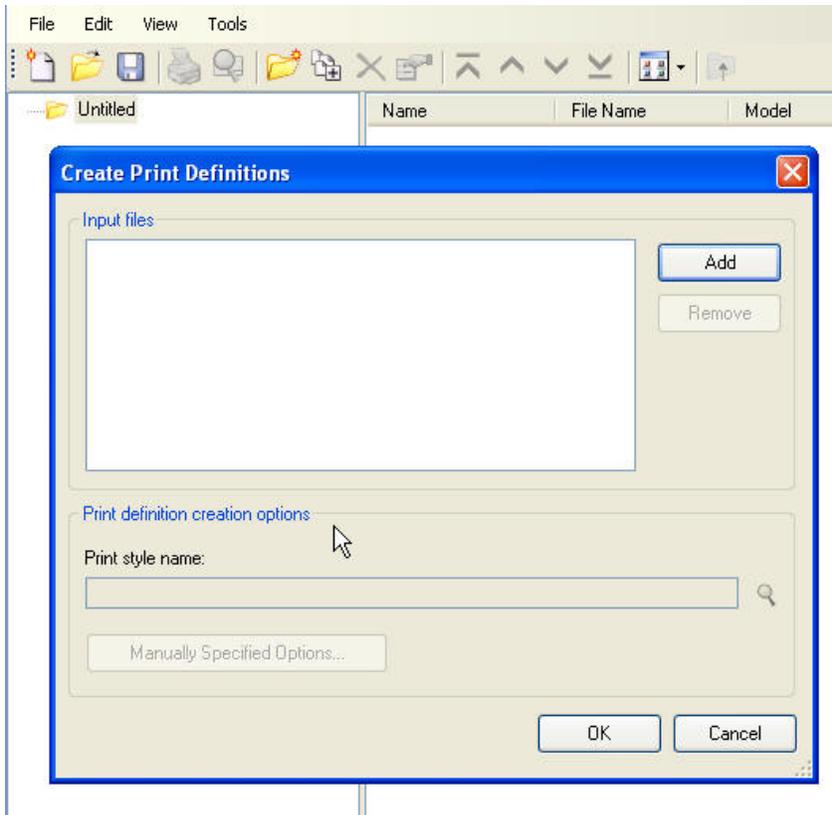

The **Print Organizer** dialog box will appear:

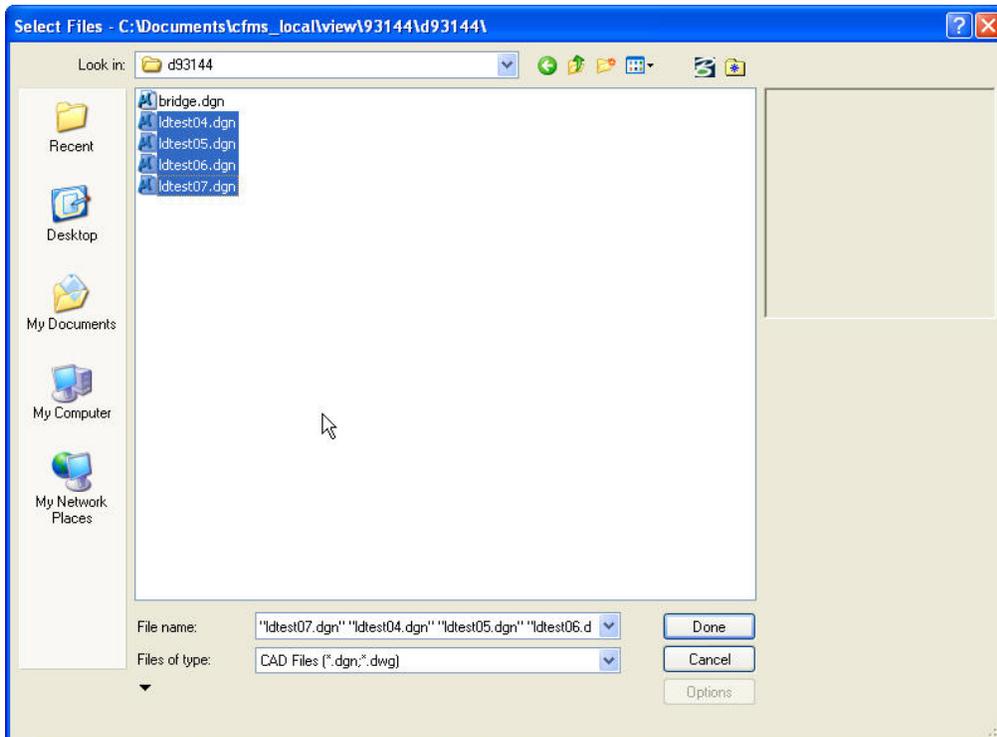

Go to **File** → **Add Files to Set**

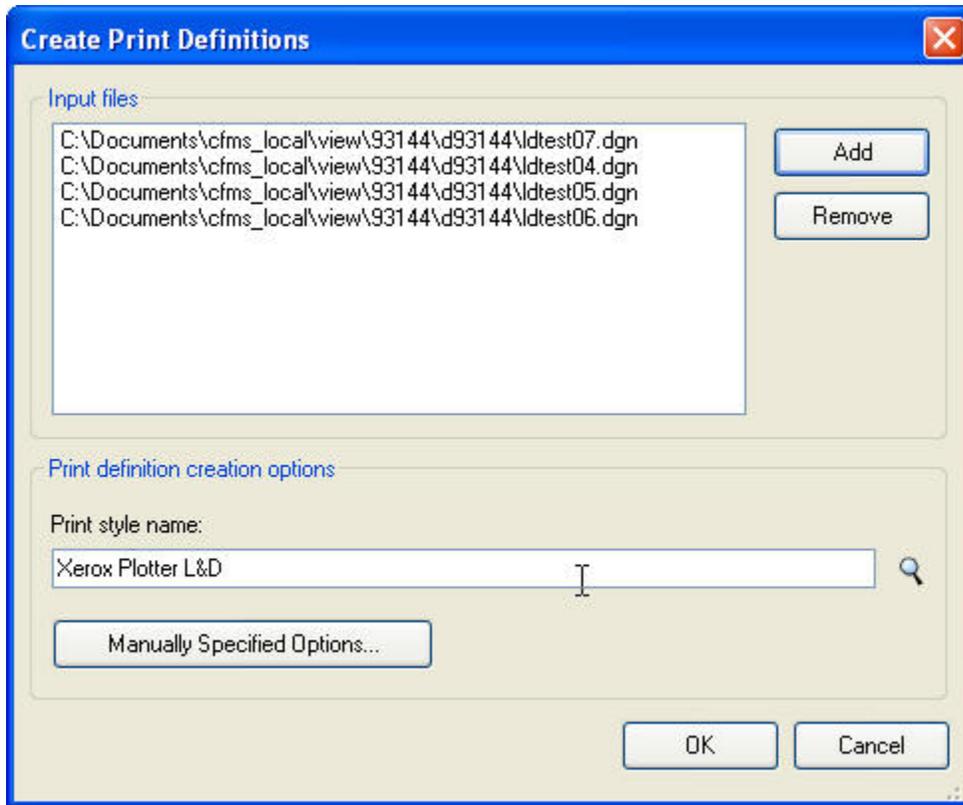

Select **Add**:

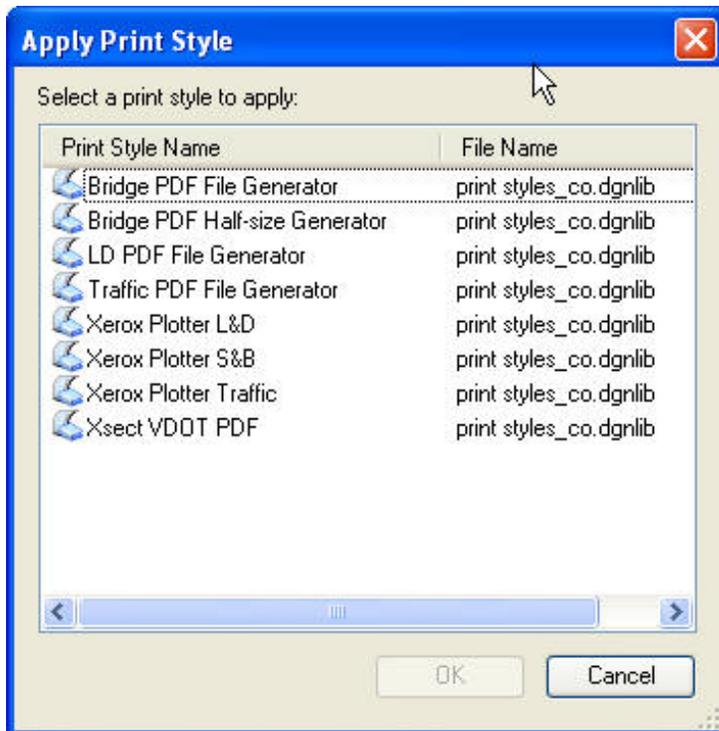

Then **Browse** to the files. Select the files and click **Done**.

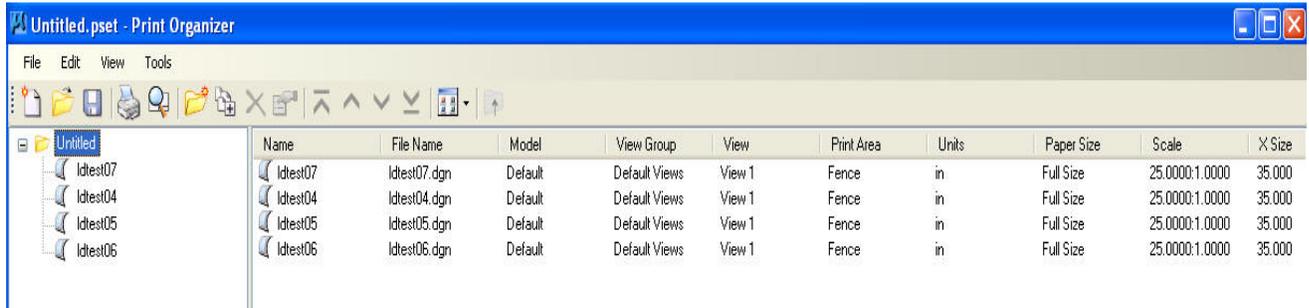

Choose the **Print Style Name** next by selecting the Magnifying glass:

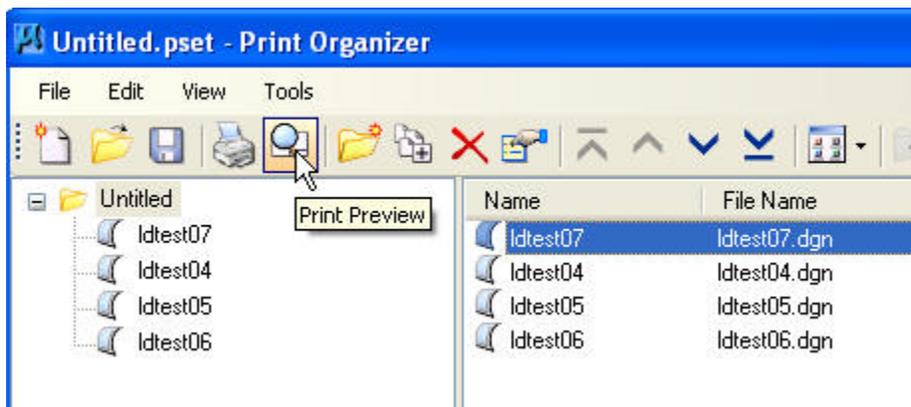

Highlight the **Print Style** and click on **OK**.

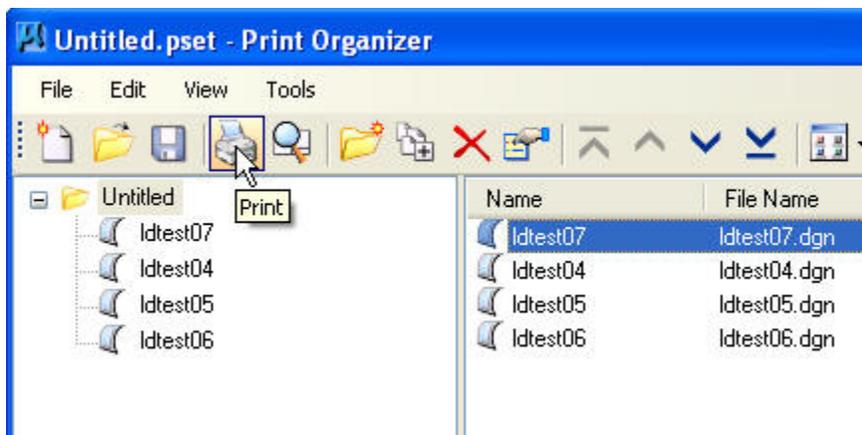

The **Print Organizer** dialog box should look like this now:

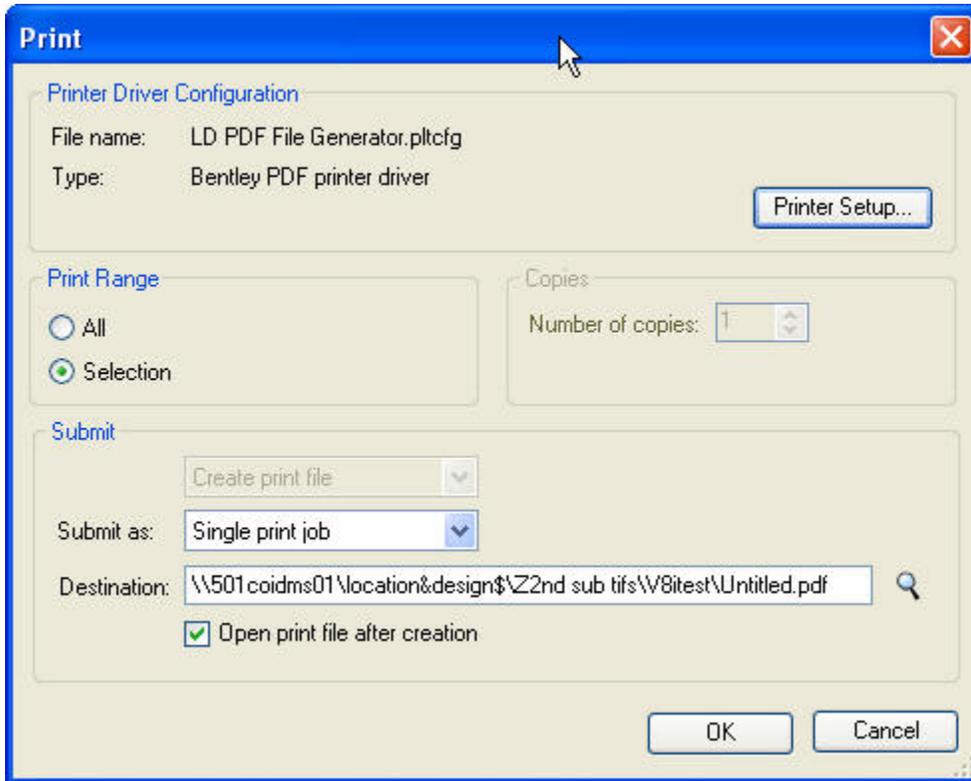

Review the settings and choose **Print Preview** if you would like to verify if the plot is correct:

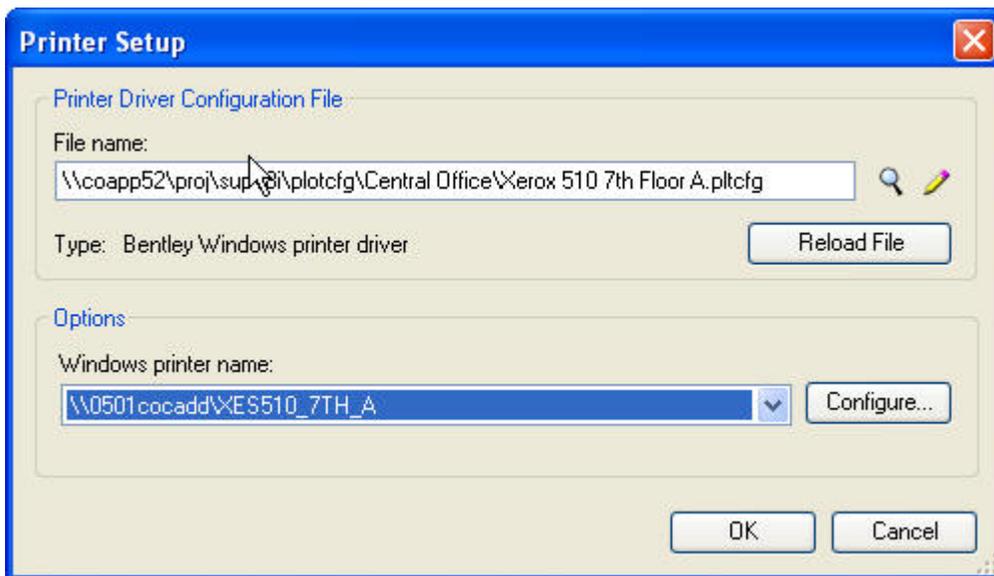

Select **Print**:

The following **Print** Dialog box should appear. Select **Printer Setup**.

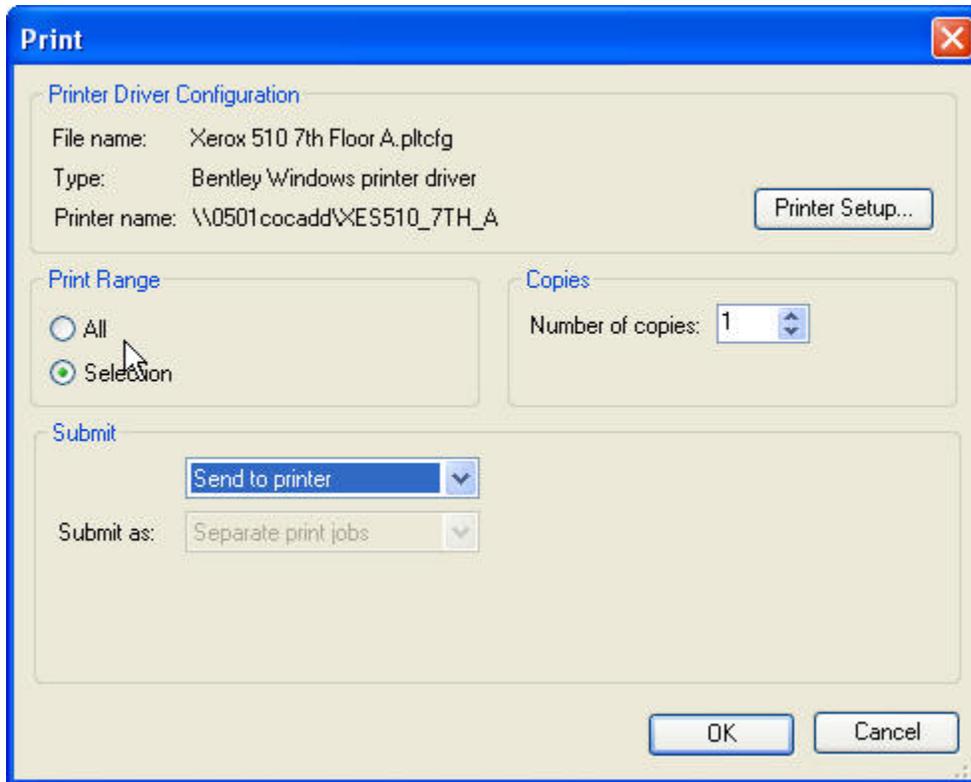

The following **Printer Setup** dialog box should appear:

Choose the correct **Driver Configuration File** and **Windows Printer Name**.
(Printer should default correctly, if not choose the Printer)

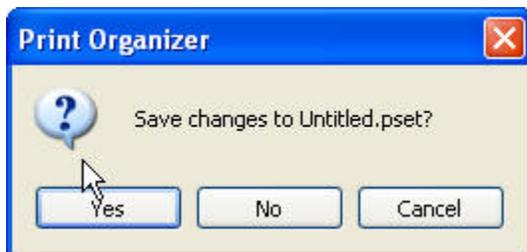

Select **OK**.

The **Print** dialog box should reappear:

Select **OK**. The prints should now come out on the plotter.

Close **Print Organizer**:

Select **No**. (Do not save the changes)
