

The New Roundabout at Town Center West, just off Broad Street in Henrico County

The DRAFT version of the 2008 National Roundabout Conference held in Kansas City is now ONLINE at: <http://www.teachamerica.com/RAB08/>

This is an extraordinary resource for the roundabout community. Almost all presentations are included. You can select the presentations by either Day/Session/Title, or by Name of Presenter.

Make sure you listen to Terry Knouse's presentation held on Tuesday afternoon entitled "Roundabouts, VDOT's Program", session 7A.

With only four more weeks of Roundabout facts, I encourage you to submit any questions or suggest topics that you would like to have included.
