- All fees associated with the provision of high quality video are for cost recovery and will not contribute to revenue generation
- High quality feeds can be customized for each Media Partner

Getting Started is Easy

Step 1: Answer the following questions:

- What is your Company Name?
- Who is your Primary Contact? (include phone number and email)
- What Quality of Video would you like to receive Standard or High Quality?
- How many concurrent Videos do you require?
- Are you interested in a custom viewing application?
- How will you be making use of the Video?
- What are your current audience figures?
- Do you receive VDOT video today? What is the source?
- Do you intend to provide this video stream on your company webpage?

Step 2: Send the information above to: 511_videosubscription@iteris.com

Step 3: You will be contacted by an Iteris team member to review your request and to walk through the next steps

Note: High quality video requests will need to have network circuits installed to connect to the VA511 video network and may require an extended lead time. Please submit your request as early as possible.
