

# ***I-295/I-64–western Henrico***

## ***New flyover ramp & interchange improvements***

*Project Number: (FO) 0064-043-125, C501, B689, B691, B695 - Federal: IM/NH-064-3*

### **What's being done?**

The project will involve improvements to the I-295/I-64 interchange in western Henrico County, widening of Pouncey Tract Road and construction of a new flyover ramp from eastbound I-64 to southbound I-295.

#### **I-295/I-64 interchange & flyover ramp**

- A lane will be added to the outside of I-64 in both directions between Route 288 and Route 250 (Broad St. exit 178).
- The current one-lane ramp from northbound I-295 to westbound I-64 (towards Charlottesville) will be increased to two lanes.
- A new, two-lane flyover ramp will carry eastbound I-64 traffic to southbound I-295. The ramp will be 1,765 feet long and 35 feet above I-64.

#### **Pouncey Tract Road widening**

- Road work will take place between Twin Hickory Lake Drive and the first signal north of Broad Street.
- The existing two lane bridge over I-64 will be replaced with a new, four-lane bridge. The new bridge will be 338 feet long with a raised median, sidewalks and aluminum railing on each side.
- Modifications will be made to the first traffic signal north of Broad Street.

### **Why is this being built?**

The flyover bridge and additional lanes will improve the flow of traffic between I-295 and Route 288.

### **When will construction begin?**

April 2006

### **What is the project cost?**

\$67 million

### **How will construction affect traffic?**

Motorists can expect nighttime lane closures starting in April 2006 along Pouncey Tract Road, I-295 and I-64. These nighttime lane closures will be in place for the duration of the project.

In addition, there will be periodic nighttime detours of I-64 traffic onto Broad Street to enable contractors to place structural steel for the new bridges and demolish two existing bridges (Pouncey Tract Road bridge and the I-295 bridge over I-64). These detours will take place between 10:30 p.m. and 5:30 a.m. and will be announced prior to implementation.

### **Is there a plan for a sound wall?**

The project calls for two sound walls. One along I-64 east, west of Pouncey Tract Road between I-64 and the Reflections at West Creek complex. The second sound wall will be between northbound I-295 towards I-64 and the Twin Hickory neighborhoods of Waters Edge, Cobblestone Landing and Parsons Walk. This sound wall does not extend westbound past the Pouncey Tract bridge.

### **Who is building the project?**

English Construction Company, Inc.

### **When is the widening of Pouncey Tract Road scheduled for completion?**

Spring 2008

### **When is the entire project scheduled for completion?**

Spring 2009

### **Where can I go for more information?**
