A thick orange curved line arches across the bottom of the slide.

## Organizational Structure History

### Chief of Planning and Programming

- Program Management Division (PMD)
- Transportation and Mobility Planning Division (TMPD)

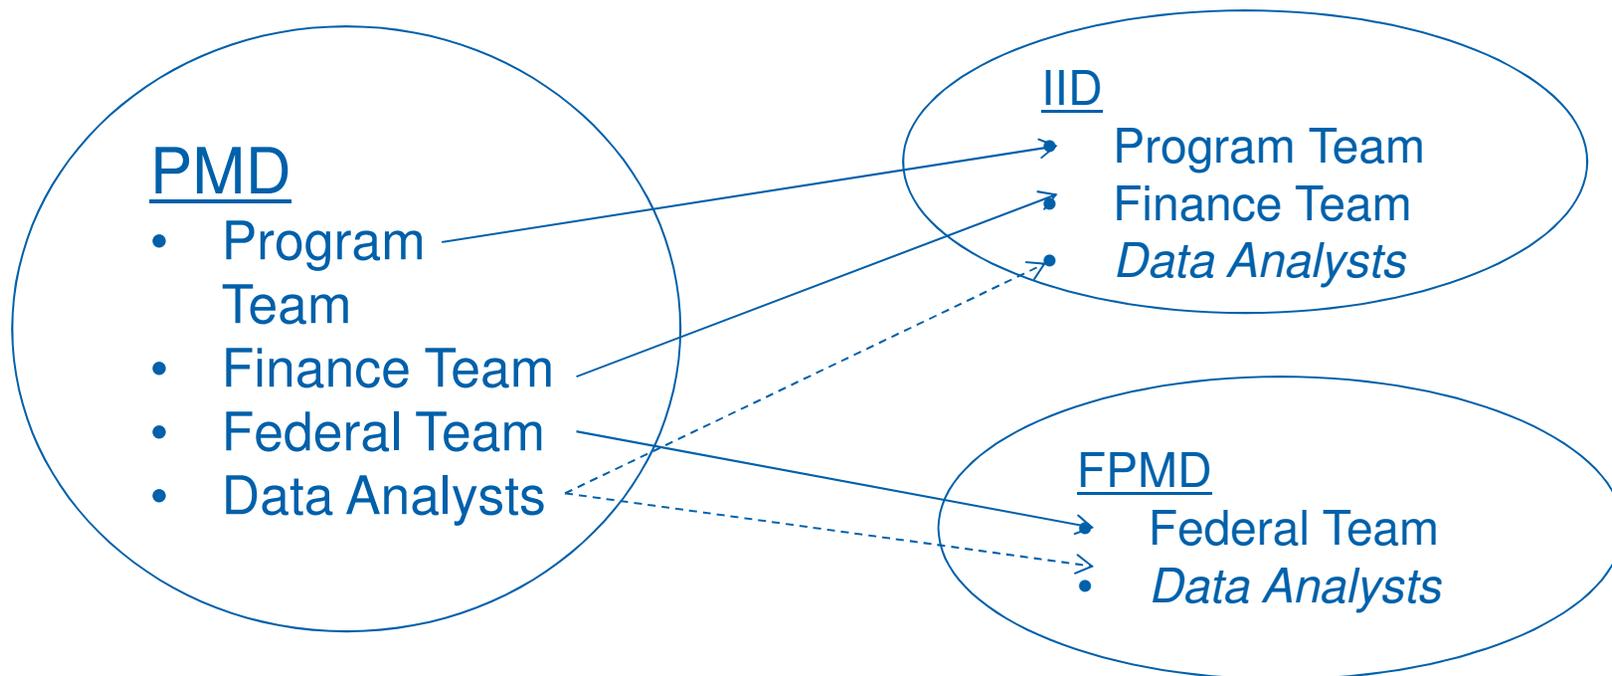

### Fall retirement of the Chief of Planning and Programming (10/16/15):

- Chief Financial Officer (CFO) assumed responsibility for PMD
- Chief Engineer (CE) assumed the responsibility for TMPD

## Further Refinement of Re-organization

### Late Fall Re-organization of the Program Management Division:

- Infrastructure Investment Division (IID)
- Federal Programs Management Division (FPMD)

## Federal Programs Management Division

- The Federal Programs Management Division (FPMD) was created as part of re-organization efforts to improve the focus and effectiveness of the Program Management Division.
- The new division provides new focus on:
  - the coordination with FHWA;
  - processing and management of federal projects, including the final voucher/federal project closeout process;
  - development and management of the STIP;
  - as well as federal strategy.
- The division's goal is to streamline and improve the development, monitoring and reporting for the areas of responsibilities.
- The impact is mainly internal. MPOs and PDCs will continue to work with their district partners.

## Federal Programs Management Division

### FPMD

- Federal Financial Management
- Planning, Analysis & Reporting
- *Data Analysts*

Fiscal  
(part)  
Federal

## Infrastructure Investment Division

- **The Infrastructure Investment Division was created as part of re-organization efforts to improve the focus and effectiveness of the Program Management Division.**
- **The new division provides new focus on:**
  - **Coordinating project management and program delivery**
  - **Managing the development and management of the SYIP**
  - **Coordinating the life of a project from initial phase opening through financial closeout**
  - **House Bill 2 process development and implementation**
- **The division's goal is to identify opportunities to simplify processes, reduce transactions, align project management and program delivery processes and policies, and improve coordination and communication with our customers.**
- **The impact is mainly internal. MPOs and PDCs will continue to work with their district partners.**

**Thank you.**
