

Get Involved

Twelve days after this design public hearing (November 3, 2014) the public comment period will close. VDOT will review and evaluate any information received as a result of this hearing.

This information, including the meeting summary, will be available for review at 87 Deacon Road, Fredericksburg, VA 22405 and at VDOT's Northern Neck Residency office located at 734 Barnfield Road in Warsaw.

The information received as a result of the meeting will be presented to VDOT's project development engineer for consideration.

If approval of the major design features is received for this project, the project will move forward to the final design phase.

Design Public Hearing

Route 200 (Irvington Road) Lancaster County

Wednesday, October 22, 2014, 5-7 p.m.
Lancaster Community Library
235 School Street, Kilmarnock, VA 22482

Public Meeting

Welcome to the Virginia Department of Transportation's (VDOT) design public hearing on the proposed sidewalk construction along Route 200 (Irvington Road) in Lancaster County.

This design public hearing is being held to provide an opportunity for citizens or organizations to give VDOT comments and/or suggestions on the proposed project. VDOT strives to ensure that all members of the community have the opportunity to participate in public decisions on transportation projects and programs affecting them.

VDOT representatives are present to discuss the project and answer your questions.

A comment sheet is included in the handout for this meeting, and your input is encouraged. All verbal and written comments received on this project will be included in a transcript for review by VDOT personnel, citizens and other interested parties.

VDOT staff will address questions and concerns raised as a result of this meeting before the project is presented to VDOT's project development engineer for consideration.

Project Overview

Cost – \$400,000

Purpose – To provide pedestrian accommodations

Improvements – Construct sidewalks and crosswalks, add pedestrian signals

State Project – 0200-051-S74, P101 UPC 104688

PROJECT DESCRIPTION

The purpose of this project is to install approximately 600' of concrete sidewalk on the east side of Route 200 (Irvington Road) beginning near the intersection of Route 634 (King Carter Drive). The sidewalk will be 5' in width.

The project will be constructed in accordance with the current road and bridge specifications to comply with federal and state regulations pertaining to public welfare and safety.

After the project is complete, VDOT will continue to maintain the road system.

Project Graphic

Estimated Project Cost

Total Cost:

\$400,000

Engineering of Roadway Plans:

\$50,000

Right of Way Acquisition, Relocation Assistance and Utility Relocation:

\$50,000

Construction:

\$300,000

Civil Rights

VDOT ensures nondiscrimination and equal employment in all programs and activities in accordance Title VI and Title VII of the Civil Rights Act of 1964. If you need more information or special assistance for persons with disabilities or limited English proficiency, contact VDOT's Civil Rights Division at 800-367-7623, TTY/TDD 711.

Right of Way

The construction of this project will require no residential displacements and no commercial or non-profit organization displacements.

The property owners will be informed of the exact location of the easements during the right of way acquisition process and prior to construction.

Information about right of way acquisition is discussed in VDOT's brochure entitled Right of Way and Utilities: a Guide for Property Owners and Tenants. Copies of this booklet are available from a VDOT right of way agent. After this meeting, information regarding right of way may be obtained from the right of way contact listed on the back of this brochure.

Anticipated Schedule

The following schedule has been proposed:

Design Public Hearing and

Comment Period – October 22, 2014 through November 3, 2014

Right of Way Acquisition begins–January 2015

Advertisement for Construction –April 2016

Environmental Review

VDOT's Fredericksburg District Environmental Office has performed environmental reviews and coordination to obtain information about environmental resources in the project vicinity; to provide natural and historic resource agencies an opportunity to review and comment on the project during its development; and to identify opportunities for avoidance, minimization and mitigation of potential environmental impacts.

The National Environmental Policy Act (NEPA) is applicable to this project and a Programmatic Categorical Exclusion has been developed in cooperation with the Federal Highway Administration and in accordance with federal guidelines. The NEPA document includes information from various technical reviews including those related to natural resources, water quality, threatened and endangered species, air quality, noise, etc. In compliance with the National Historic Preservation Act, Section 106 and 36 CFR Part 800, information concerning the potential effects of the proposed project on properties listed in or eligible for listing in the National Register of Historic Places is also provided in the environmental documentation.

The project will continue to be coordinated with the appropriate federal, state, and local agencies as part of environmental review and approval processes required throughout project development and construction. All required environmental clearances and permits will be obtained prior to commencement of construction. Strict compliance with all environmental conditions and commitments resulting from regulatory approvals, and implementation of VDOT's specifications and standard best management practices will protect the environment during construction.

The NEPA document and the results of other environmental studies are available at today's meeting. Representatives from VDOT's Environmental section are available to discuss this information and to answer questions.
