

PROJECT DESCRIPTION

The primary purpose of this project is to replace the bridge and necessary approaches on Route 711 (Tardy Mountain Road) bridge over Norfolk Southern Railroad.

The existing bridge is a single lane structure with reduced roadway width and an 8-ton weight restriction. The proposed bridge will be a two-lane truss bridges on the same alignment with slight improvements to the alignment toward Route 682 (Leesville Road). The proposed bridge will be approximately 184 feet long and 22 feet wide.

The roadway typical section will consist of two 9-foot lanes, 2-foot shoulders (7-foot shoulders where guardrail is required), 4-foot ditches with 3:1 slopes.

During construction the roadway will be closed and traffic detoured. Currently, the project is not funded for construction.

Route 711 has a current average daily traffic (ADT) volume of 241 (2007 count), an estimated ADT of 251 in 2011 and a design year ADT of 311.

The design of this project is in compliance with the Stormwater Management Act, stormwater management standards and specifications approved by the Virginia Department of Conservation and Recreation. The construction of this project will conform to the nationwide best management practices, VDOT specifications and special provisions, and Virginia Department of Soil and Water Conservation regulations. During construction every reasonable effort will be made to protect the environment with respect to dust and erosion control.

Estimated Project Cost

Total Cost (approximate):

\$ 4.0 million

Engineering of Roadway Plans:

\$429,839

Right of Way:

\$132,259

Construction:

\$3.4 million

This cost is subject to change because development of the project is in early design stages. The project will be financed using federal and state funds.

Environmental Review

VDOT's Lynchburg District Environmental Office has performed environmental reviews and coordination to obtain information about environmental resources in the project vicinity; to provide natural and historic resource agencies an opportunity to review and comment on the project during its development; and to identify opportunities for avoidance, minimization and mitigation of potential environmental impacts.

The National Environmental Policy Act (NEPA) is applicable to this project and a NEPA Programmatic Categorical Exclusion has been developed in cooperation with the Federal Highway Administration and in accordance with federal guidelines. The NEPA document includes information from various technical reviews including those related to natural resources, water quality, threatened and endangered species, air quality, noise, etc. In compliance with the National Historic Preservation Act, Section 106 and 36 CFR Part 800, information concerning the potential effects of the proposed project on properties listed in or eligible for listing in the National Register of Historic Places is also provided in the environmental documentation.

The project will continue to be coordinated with the appropriate federal, state, and local agencies as part of environmental review and approval processes required throughout project development and construction. All required environmental clearances and permits will be obtained prior to commencement of construction. Strict compliance with all environmental conditions and commitments resulting from regulatory approvals, and implementation of VDOT's specifications and standard best management practices will protect the environment during construction.

The NEPA document and the results of other environmental studies are available at today's meeting. Representatives from VDOT's Environmental Section are available to discuss this information and to answer questions.

Anticipated Schedule

The following schedule has been proposed:

End design hearing comment period – May 10, 2013

Adopt design – July 2013

Authorize Right of Way – May 2014

Advertise for construction – May 2018*

* Project is not currently funded for construction

Civil Rights

VDOT ensures nondiscrimination and equal employment in all programs and activities in accordance with Title VI and VII of the Civil Rights Act of 1964. If you need more information in regards to your civil rights on this project or special assistance for persons with disabilities or limited English proficiency, contact the project manager listed in this brochure.

Right of Way

The construction of the Route 711 improvement project will require the displacement of no families, businesses or non-profit organizations.

As we further develop the design of this project, additional easements for utility relocation may be required beyond the proposed right of way shown on the public hearing plans. The property owners will be informed of the exact location of the easements during the right of way acquisition process and prior to construction.

Information about right of way purchase is discussed in VDOT's brochure, "Right of Way and Utilities: a Guide for Property Owners and Tenants." Copies of this brochure are available here from a VDOT right of way agent.

After this meeting, information regarding right of way may be obtained from the right of way contact listed on the back of this brochure.

Get Involved

Ten days after the public hearing (May 10, 2013), the public comment period will close. VDOT will review and evaluate any information received as a result of this location and design hearing. This information, including the hearing summary, will be available for review at the VDOT office address listed below.

After all comments have been addressed, the major design features will then be presented to VDOT's Chief Engineer or designee for approval.

Project information shared here is available for review after the design public hearing at VDOT's Lynchburg District Office located at 4219 Campbell Ave., Lynchburg, VA 24501.

Comments can also be submitted in writing to lynchburginfo@vdot.virginia.gov. Please include "Route 711 Design Public Hearing Comment" in the subject line. Information must be postmarked, emailed or delivered to VDOT within 10 calendar days of today's meeting (May 10, 2013) in order to be included in the design public hearing record.

Design Public Hearing

Route 711 (Tardy Mountain Road) over Norfolk Southern Railroad Campbell County

Tuesday, April 30, 2013, 4 - 6 p.m.
Altavista Train Station
414 Washington Street
Altavista, VA 24171

Public Meeting

Project number: 0711-015-320, P101, R201, C501, B650; Federal number: BR-015-3(053); UPC 82510

The Virginia Department of Transportation (VDOT) welcomes you to the design public hearing for the proposed improvements to Route 711 (Tardy Mountain Road) in Campbell County 0.128 west of Norfolk Southern Railroad to 0.033 miles east of Norfolk Southern Railroad.

This design public hearing is being held to provide an opportunity for any person, acting on his/her own behalf or representing a group or governing agency, to give the department comments and/or suggestions on the proposed project. Funding is currently available for the preliminary engineering and right of way of this project only. Additional funding will be needed for construction.

VDOT strives to ensure that all members of the community have the opportunity to participate in public decisions on transportation projects and programs affecting them.

VDOT representatives are present to discuss the project and answer your questions.

A comment sheet is included in the handouts for this meeting, and your input is encouraged. All oral and written comments received on this project will be included in a transcript for review by VDOT personnel, citizens and other interested parties.

Project Overview

Anticipated Cost – \$4.0 million

Purpose – Replace a bridge and approaches

From – 0.128 miles west of Norfolk Southern Railway

To – 0.033 miles east of Norfolk Southern Railway

Total length – 0.161 miles

Improvements – Replace the bridge over Norfolk Southern Railroad on the same alignment
