- Provide an Overview of the Project
- Discuss the Project Schedule
- Describe 2012 Construction Activities
- Answer Your Questions

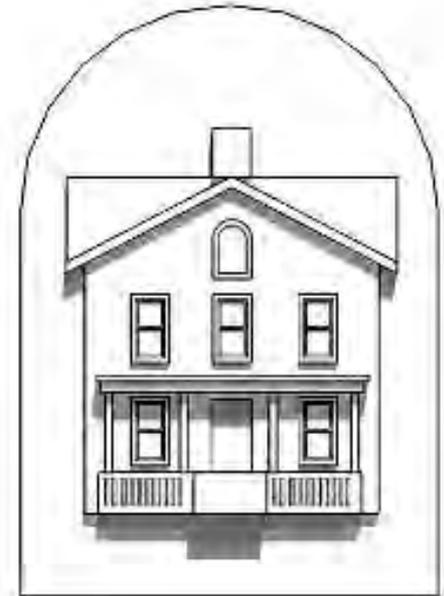

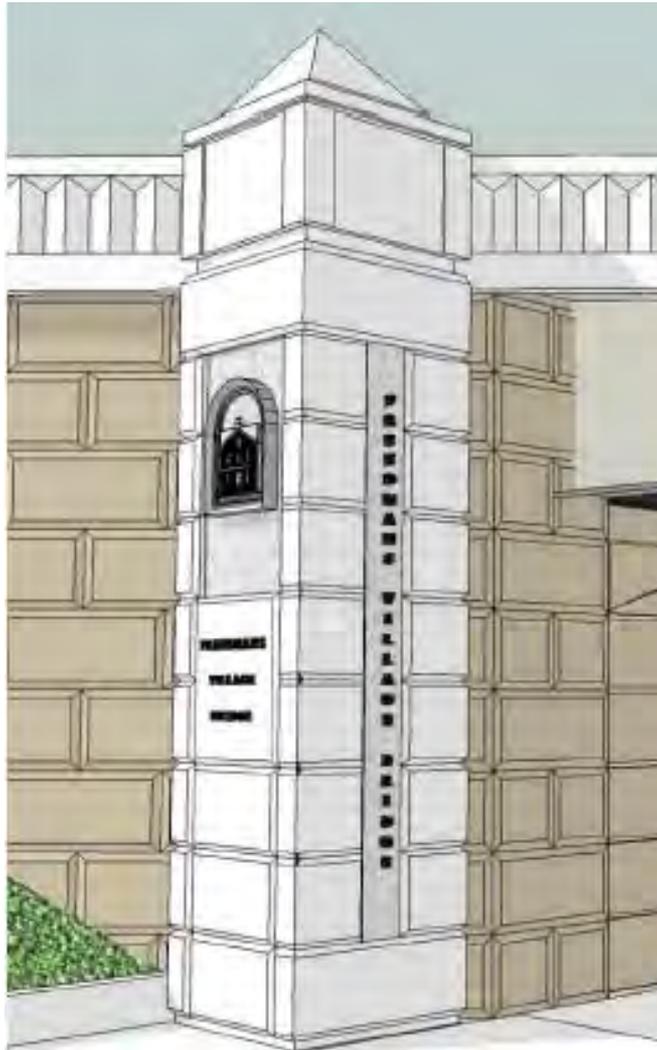

Existing Washington Boulevard Bridge Over Columbia Pike

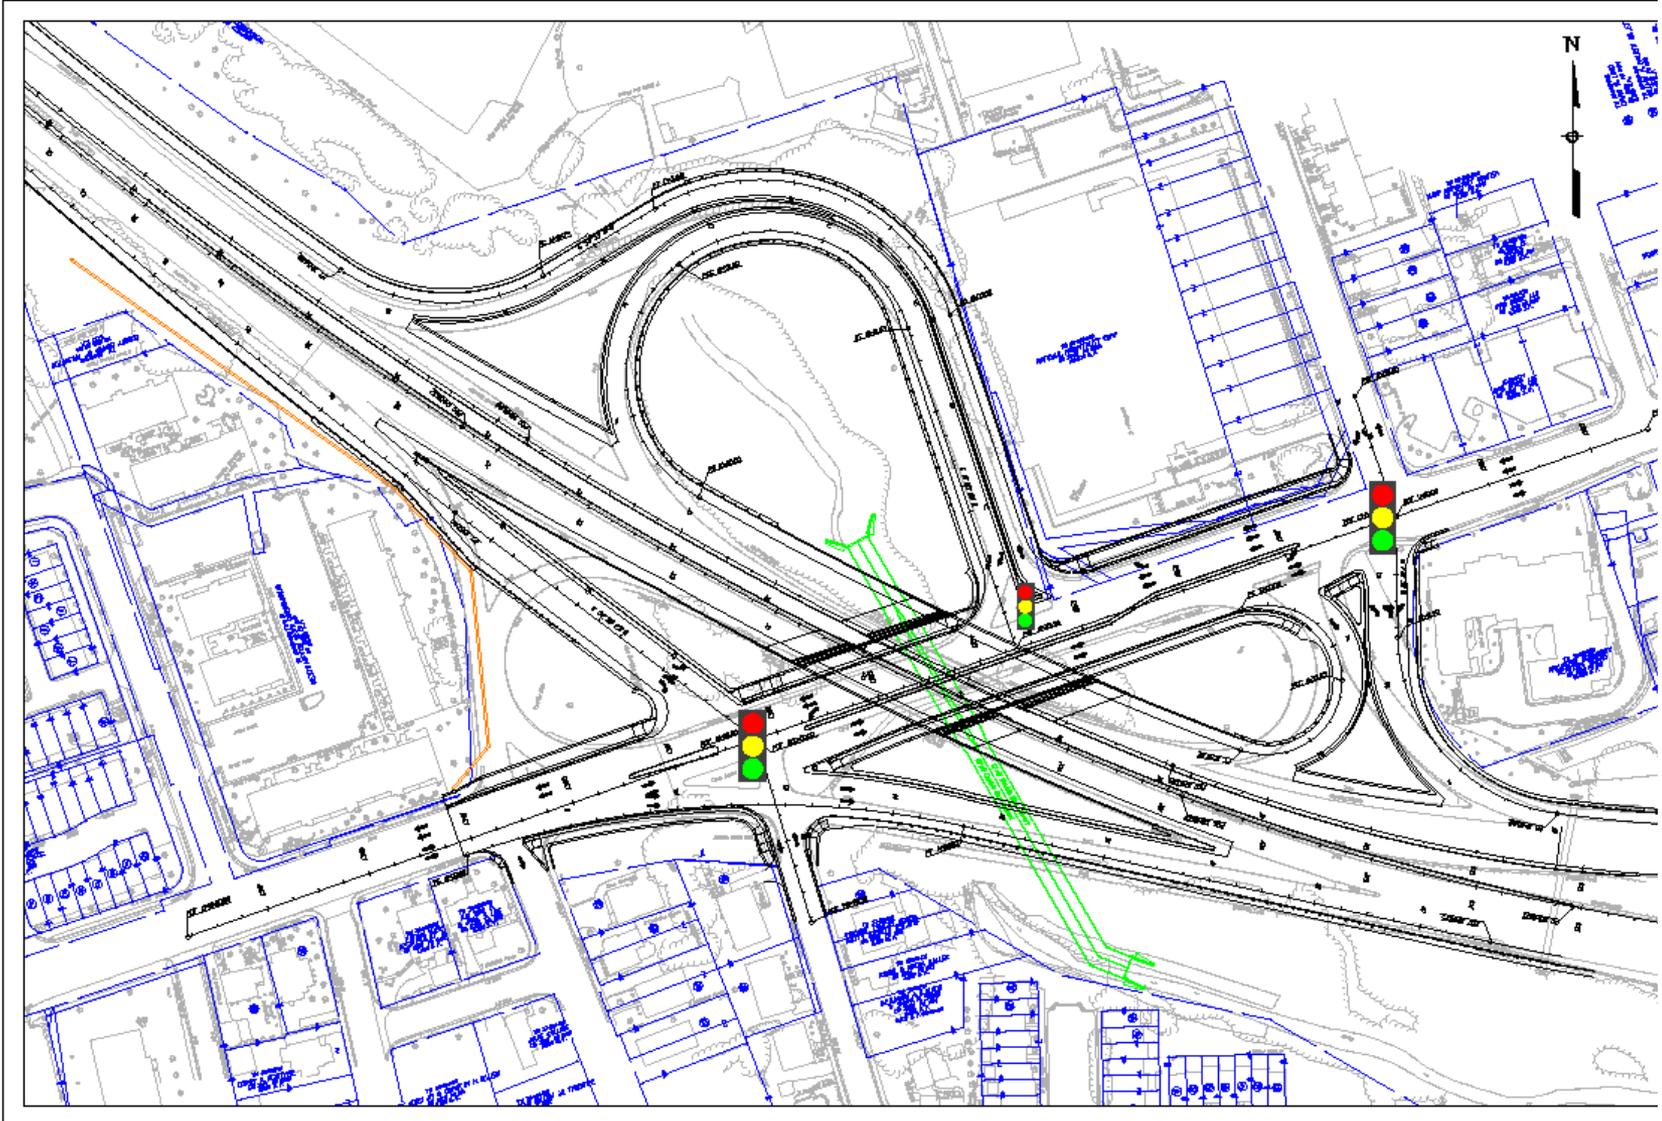

The Freedmans Village Bridge

Bridge Aesthetics - Medallions

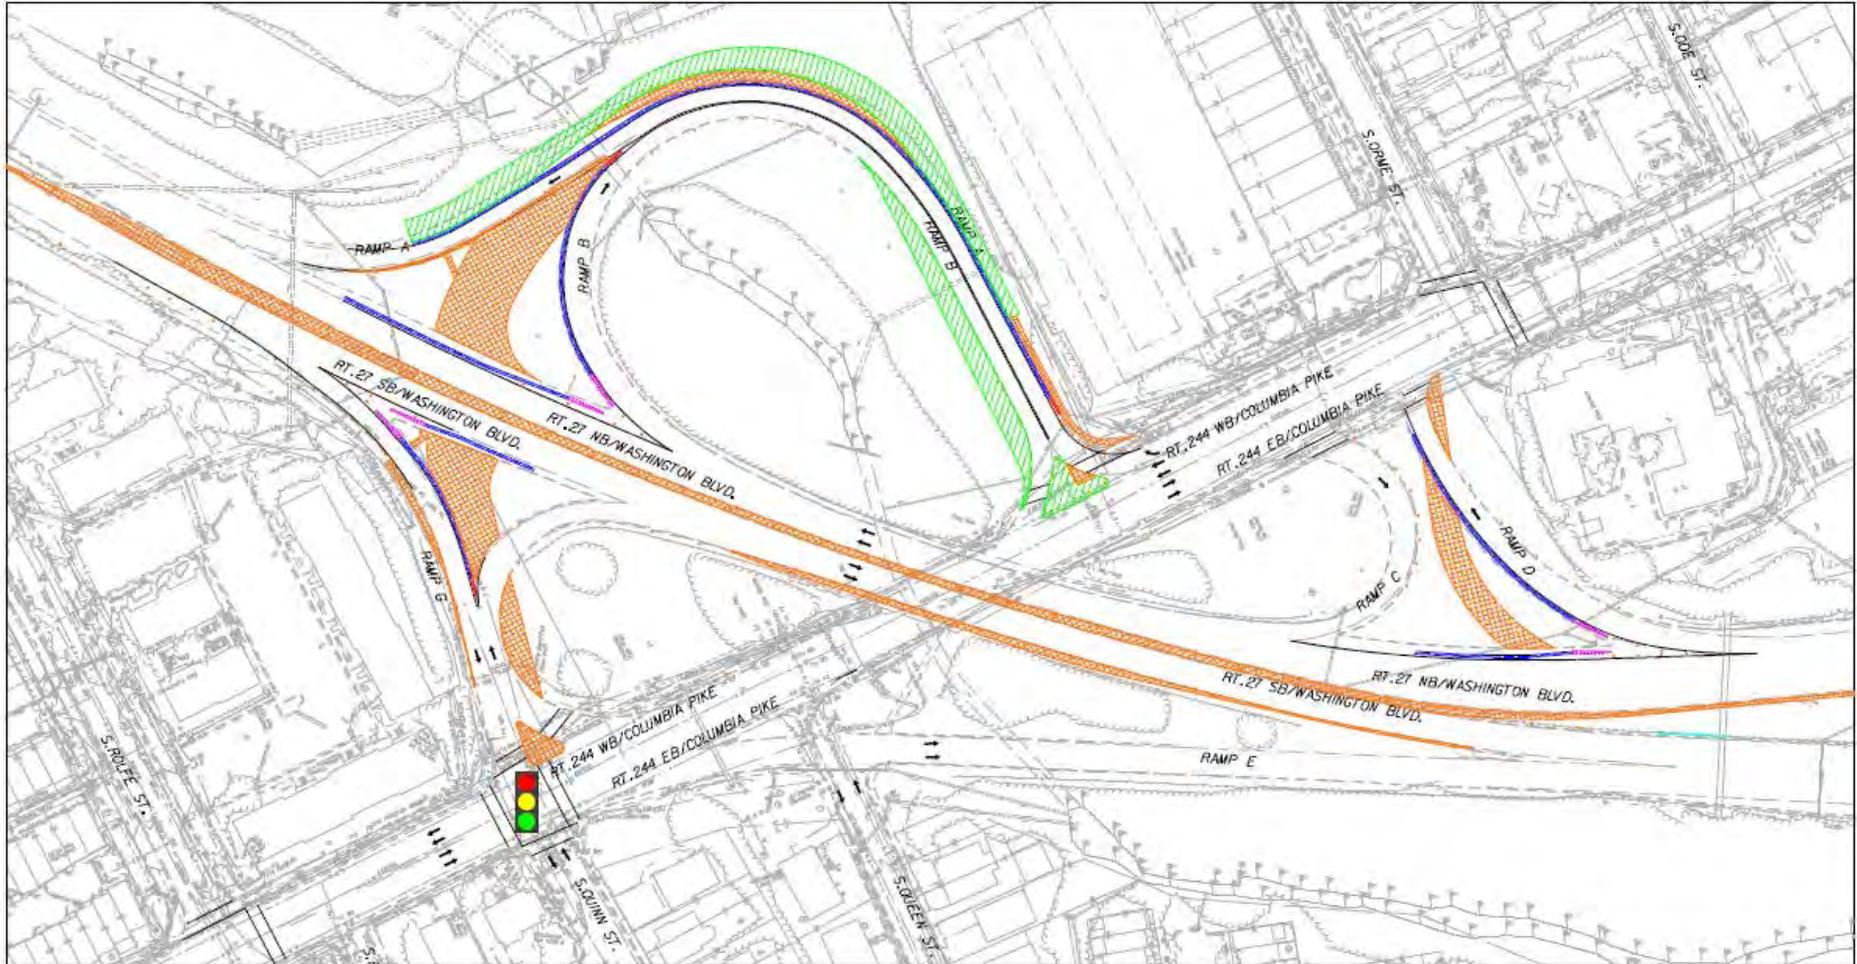

Major Design Features

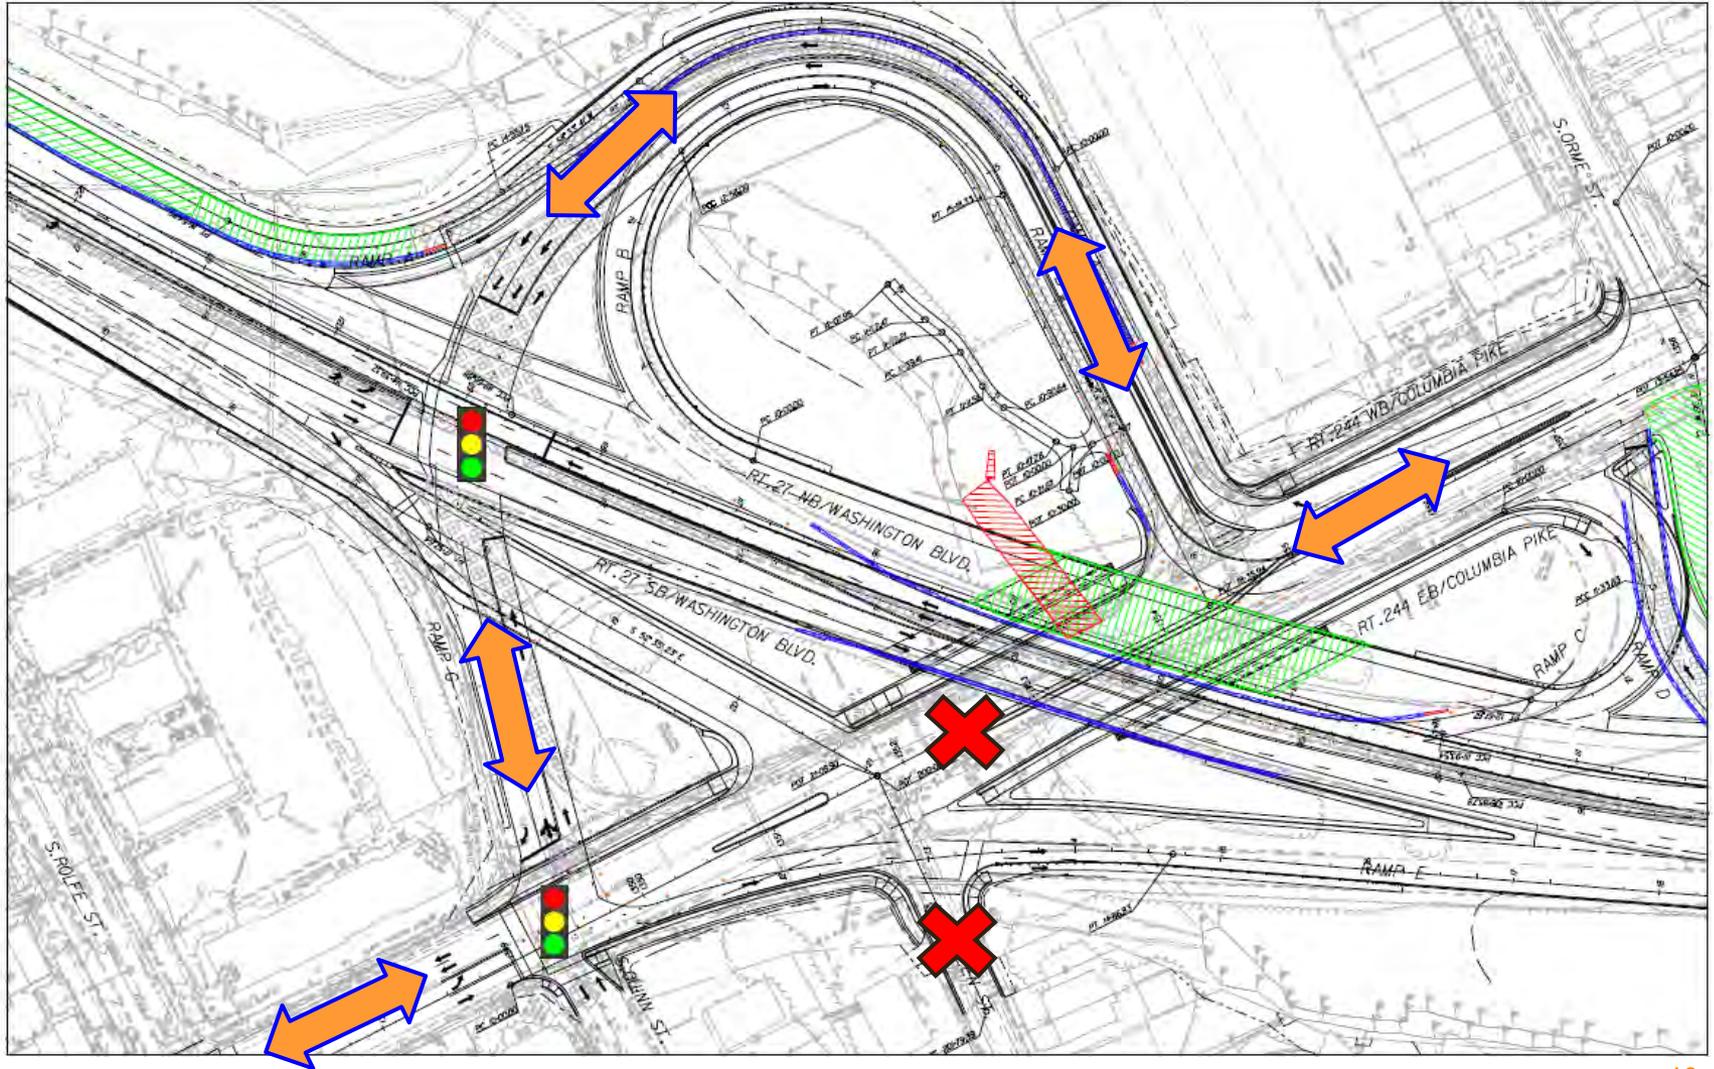

Project Schedule

September 2011	Kick-Off to Design/Build
Fall/Winter 2011	Final Design, Obtain Permits
Spring 2012	Begin Land Acquisition and Construction
August 2015	Construction Complete

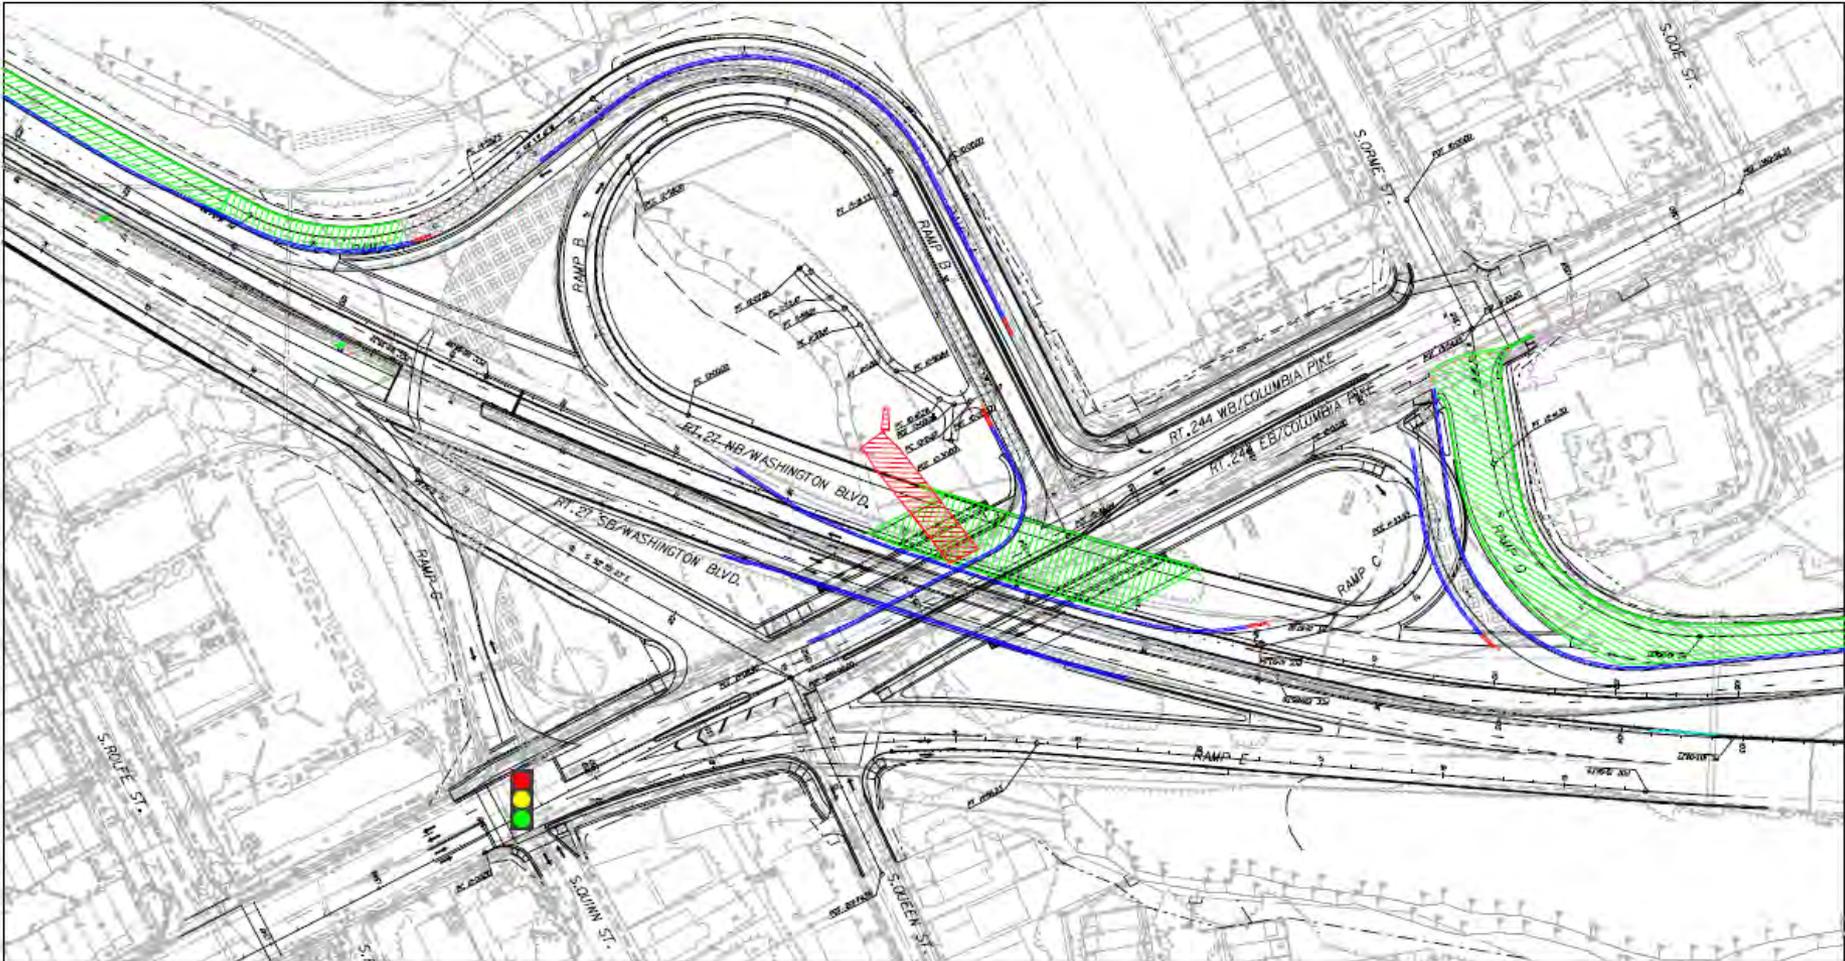

Stage 1 Construction Spring 2012 to Summer 2012

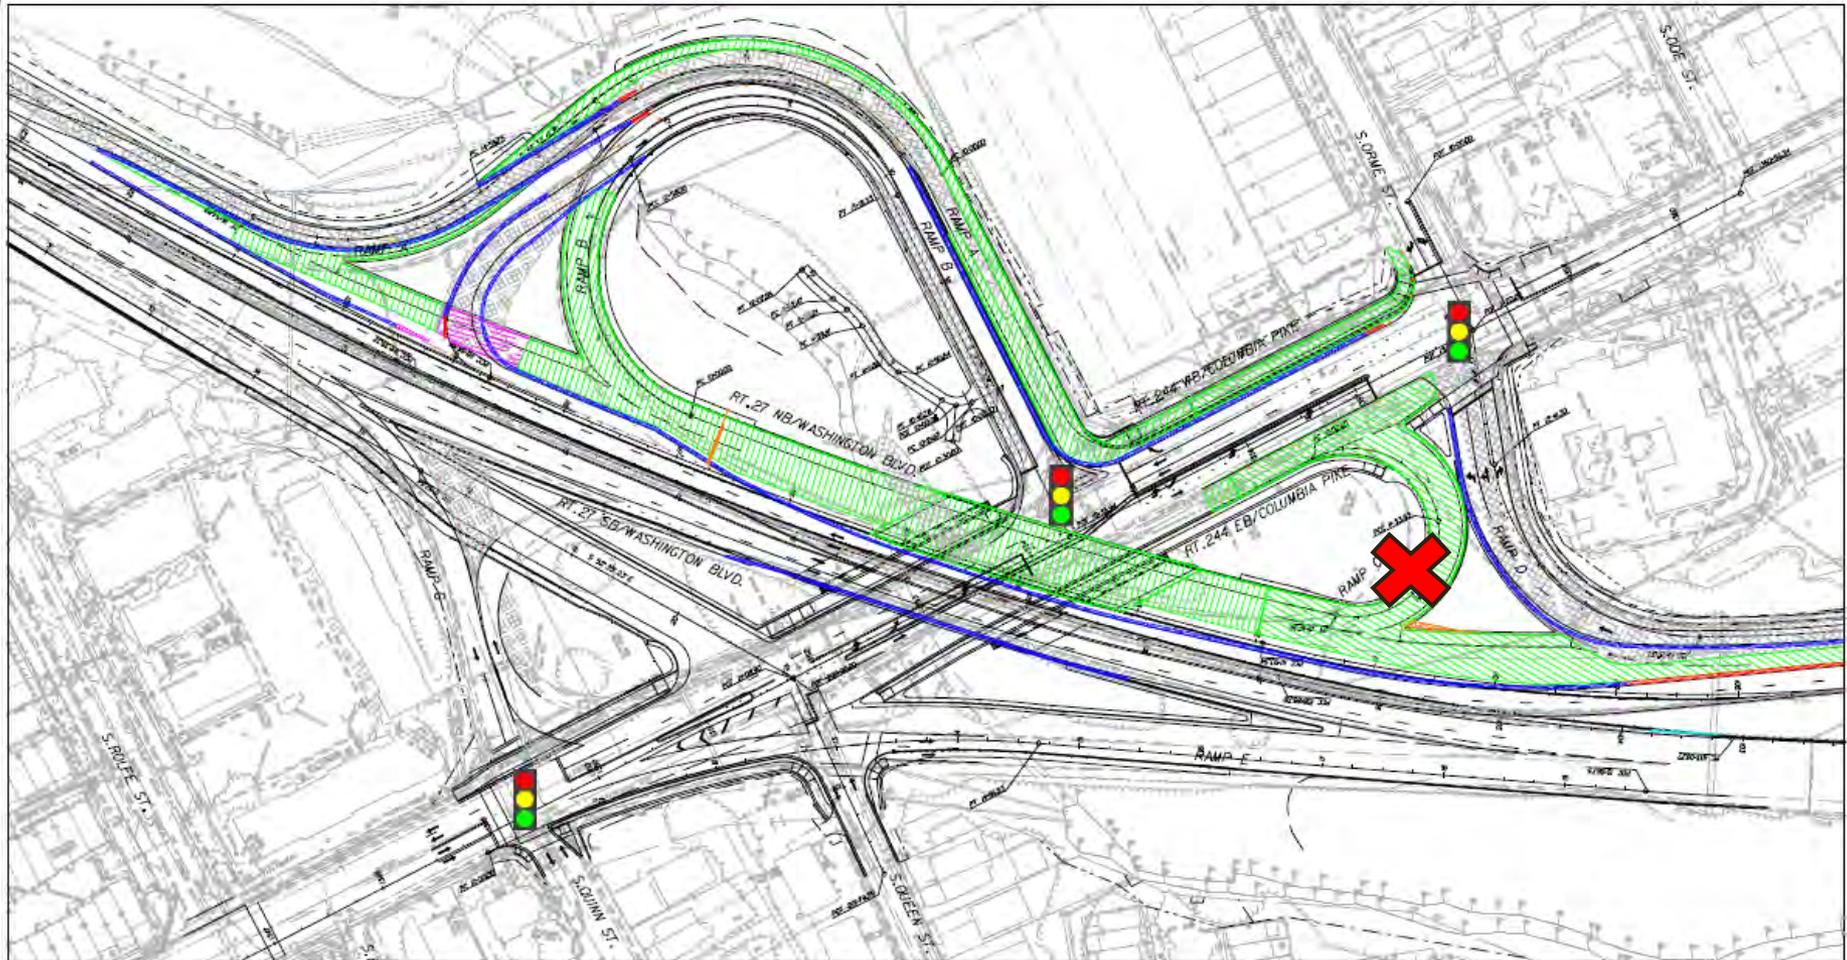

Columbia Pike Weekend Detour

Stage 2 Construction Summer 2012 to Summer 2013

Stage 3 Construction Fall 2012 to Summer 2013

Addressing Your Concerns... Regarding Construction

- All modes of travel will be accommodated through all phases of construction.
- Traffic disruptions will be minimized to the extent possible with daily off-peak lane closures along Route 244 and Route 27.
- Access to Arlington View either through a signal at S. Quinn St. or S. Queen St. during all phases.
- Shirley Contracting will work to minimize noise during construction to the extent possible.

Addressing Your Concerns... Regarding Construction

- The majority of the construction operations will be on weekdays during normal daytime hours, generally 7:00 am to 5:00 pm.
- Some work will need to be done on weekends (bridge demolition and major drainage construction) and at night (paving and striping).
- Additional Pardon Our Dust meetings will be scheduled prior to major milestones.
- Notices for traffic shifts and future Pardon Our Dust Meetings will also be distributed by email. Please sign-up for the email distribution list.
